PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

MAY 30 1998

PURSUANT TO 807 KAR 5.011,
SECTION 9 (1)
BY: Stephan D. Bell
SECRETARY OF THE COMMISSION

Issued: April 30, 1998

Effective: May 30, 1998

Senior Vice President
Cincinnati, Ohio

AN DESIGN CENTER ELEMENTS

A. GENERAL

1. AN Design Center Elements provide subscribers with the capability to create customized solutions in order to manage their incoming calls. Paragraph D contains a description of an element that can be used to manage incoming calls.
2. Design Center Element calls will be routed within the local network.
3. If the network receives a calling party number where the handling of the call has not been predetermined, (i.e. new telephone number), the call will be routed to a predetermined default location, that has been selected by the subscriber.
4. If the network does not receive the required information necessary to process a call (i.e. out-of-area), the call will be routed to a predetermined default location, that has been selected by the subscriber.
5. AN Design Center solutions are designed and updated by the subscriber, working with a Company representative who is responsible for the initialization and subsequent updates of the AN Design Center Elements.

BY: Stephan D. R. 110

Issued: April 30, 1998

Effective: May 30, 1998

Senior Vice President
Cincinnati, Ohio

AIN DESIGN CENTER ELEMENTS (Cont.)

B. DEFINITIONS

1. Advanced Intelligent Network (AIN)

A service-independent, software-controlled product development architecture in which the network intelligence is located in computer nodes distributed throughout the network rather than in the originating and terminating Central Offices.

C. REGULATIONS

1. Provisioning of the element associated with this tariff is subject to the availability and operational limitations of the equipment and associated facilities.
2. In the event that a call originates outside the CBT LATA, CBT will use its best efforts to maintain compatibility with any carrier required to complete such calls.
3. A CBT technician will review each subscriber line in order to determine technical feasibility and any possible impact to other services that the subscriber has on their line.
4. Standard network traffic controls within the subscriber's serving central office may limit the number of queries launched to this service. If this occurs, normal call processing will occur as if the subscriber did not have the Selective Call Acceptance service (i.e. calls will not be screened by SCA).

AN DESIGN CENTER ELEMENTS (Cont.)

D. ELEMENT **DESCRIPTIONS**

1. AIN Selective Call Acceptance

AN Selective Call Acceptance allows a subscriber to establish a list of numbers that are to be accepted on the subscribers' line. When an incoming call is from a telephone number that is on the list, it will be completed. If an incoming call is from a telephone number that is not on the list, it will be routed to a local telephone number that has been predetermined by the subscriber. A CBT Company representative will work with the subscriber to initialize and update the acceptance list. The initialization of the list and any subsequent updates to the list are subject to the nonrecurring charges found in Paragraph E. The number of telephone numbers that appear on the acceptance list will be subject to subscriber needs and technical feasibility.
